

Hi:

Happy new year to everyone. Great that we are looking at this Section of the Act. As I feel we need to ensure only aboriginal people are able to enrol and vote, but have an easier/quicker process.

Also at the very start! When the parcel of land to be returned, this needs to go out to the aboriginal community, more widely, allowing for community involvement and input into the process.

Thaks for the review. I will consider what my comments may be and get back to you all soon.

Thanks

Hank Horton
